

**REPAIR  
RESTORE  
RENOVATE**

**REDESIGN**

A guide to the WeAreWaterloo  
Shopfront Upgrade Scheme

**WE ARE  
WATERLOO**

## 01

## WHAT?

- Redesign is a newly developed grant scheme that enables Waterloo businesses to make a wide range of upgrades to their shopfronts.
- From a fresh coat of paint to brand new signage, festoon lighting to menu displays, WeAreWaterloo is empowering business owners to enliven their units.
- WeAreWaterloo is offering grants of up to £5,000 per business to help carry out these upgrades. This will be 20% match-funded by the business (for every £1 a business invests WeAreWaterloo will invest £5).
- WeAreWaterloo will also provide complimentary advice and promotion throughout the process.

## WHY?

- Shopfront design is fundamental to attracting new visitors and ensuring repeat customers. Visually appealing facades and retail corridors also significantly contribute to an individual's positive perception of an area.
- However, the financial impact of the pandemic has prevented many businesses from investing in their shopfronts. That is why WeAreWaterloo is helping businesses fund those investments.

### The Business Case

Research shows that renovating your shopfront can **boost sales by almost 50%**, whilst also **increasing employee morale** ([Monash University, 2014](#)). What's more, areas with upgraded shopfronts encourage **greater inward investment** and **visitor spending**.

## 02

## WHO?

Businesses who apply to the WeAreWaterloo Shopfront Upgrade Scheme must fit the following criteria:

- Be a small/medium size independent business with fewer than 5 locations nationwide.
- Occupy or own a commercial premises located within the Waterloo BID area (see Appendix 2).
- Have relevant permission from the landlord to renovate their unit.

## HOW?

# 1

Stage one involves submitting a basic proposal by filling out our grant application form. This will help confirm your business's eligibility and provide an outline of your project.

# 2

In stage two successful business will be contacted to arrange a meeting and site visit. Here we will look to learn more about your proposal and discuss the project specificities.

# 3

Successful applications will be selected and grant offers will be made. The recipient business will then approve our terms & conditions and the projects will be approved by relevant bodies.

# 4

Work will begin and its progress will be monitored by WeAreWaterloo. Advice and basic assistance will be provided. Businesses will be reimbursed as the work is completed.

## 03

**FUNDING USES****1 Signage**

Replace or renovate your shop's signage to stand out on the street.

**2 Awning**

Replace or clean your shop's awning for a classic shopfront look.

**3 Planting**

Sustainably enliven your shopfront with a variety of plants and flowers.

**4 Shop window**

Upgrade your shop's window display with vinyl posters, hanging menus etc.

**5 Lighting**

Brighten up your shopfront by installing or fixing external lighting.

**6 Painting**

Give your shopfront a fresh coat of paint or even try a brand new colour.

## 04

## ADVICE FOR APPLICANTS

### Demonstrate your need

Since there is only a limited amount of grant funding available, WeAreWaterloo will prioritise businesses and areas that need funding most. Therefore, applications should aim to highlight a genuine need for renovation.

---

### Keep things local

WeAreWaterloo believes strongly in keeping money in the local economy. Therefore, applications should demonstrate an intention to use local contractors where possible. We are happy to provide recommendations where necessary.

---

### Don't forget the finances

Though we don't expect to receive fully budgeted project proposals, your application should consider the costs involved in your renovation. This will both help us allocate our funding and will demonstrate your project management understanding.

---

### Think beyond your business

As an organisation responsible for the entire Waterloo business community, we are particularly interested in the knock-on effects that your renovation might have on the wider area. Therefore, try to demonstrate how your project might benefit others.
